RE: November 24, 2020, comments for CRSP and RMR Rate Brochures – Proposed Rates for WEIS Market Participation

Dear Ms. Lepin:

Thank you for your emails and comments regarding the Colorado River Storage Project (CRSP) and Rocky Mountain Region (RMR) Rate Brochures for Western Energy Imbalance Service (WEIS) Market Participation. Customer and stakeholder input make our processes more effective and we appreciate the time you spent reviewing our brochures. We will continue our practice of requesting input and comments from customers and will make sure your office is included in future distributions regarding the WEIS rate process for both CRSP and RMR.

CRSP and RMR's consolidated responses to your comments are enclosed. We also plan to post them on our website [here](#) for CRSP and [here](#) for RMR. We are currently updating both brochures and plan to post them to these sites in the next several days.

Sincerely,

Thomas J. Hackett
CRSP Rates Manager

Sheila D. Cook
Rocky Mountain Region Rates Manager
